

## Pricing Policy

Our website displays the "Seller Price" which means the suggested retail price provided by the Seller in the normal course of sales. Plura Choice may on some occasions check the Seller pricing with other Sellers and will be providing competitive pricing under "Special Price", "Discounted Price" or "Clearance Price". Said price shall be determined with analysis by PluraChoice.com or PluraChoice.ca website.

### **PRE-DETERMINED DISCOUNT** (code: PDD)

Certain Buyers with Pre-Determined Discount rates from the Sellers will be able to obtain certain items by using the same discounts when said codes are accepted by the Sellers for the Buyers.

### **QUANTITY PRICING DISCOUNTS** (code: QPD)

Buyers of Plura Choice will have access to Quantity Pricing Discounts which will be made available for purchases of larger quantities of certain items. Said quantity discounts will be determined by Plura Choice. In the event of such discount rates and pricing have been provided prior by the Sellers, such will be taken into consideration by Plura Choice, but quantity pricing discounts may not at all times be guaranteed by Plura Choice.

### **PREMIER BUYER DISCOUNTS** (code: PBD)

On individual items is a special discount scheme that will be provided to Plura Choice Buyers who have been purchasing products using the website for 14 months or more. Said discounts will be applicable to all products which the said Buyer purchases for a period of the next 14 months, considered upon the Buyer's continued monthly purchase volumes. Plura Choice will have the right to discontinue the said Premier Buyer Discount in the event the said Buyer purchases have been reduced during the said period, which will be solely determined by Plura Choice.

### **PRICING ERRORS AND PRICING CONFIRMATIONS**

Plura Choice makes its best efforts to provide the best prices to its Buyers on all occasions. Though Plura Choice makes all attempts to provide real-time pricing on all items which are available through our websites, on certain occasions due to numerous issues which may but not limited to Sellers and or Plura Choice web support software system issues or other issues, such as mispricing which may appear on our website, said pricing may not be accurate. In the event of the sale price of an item or the number of items being higher than the displayed price and or the sold price, we will contact the purchaser and inform the said price change prior to said items being shipped to the Buyer. If the products ordered are not delivered during the stipulated time or are misplaced or damaged, the Seller will be solely responsible for the resettlement of the Buyer.
